

## Summary

- Title: **All You Need to Know about Installing Charging Stations - Local government requirements**
- Speaker: **Ivan Miller, Principal Planner, AICP, Puget Sound Regional Council**
- Biography: **Ivan Miller is a principal planner at the Puget Sound Regional Council, and works in the Growth Management group. He is currently managing PSRC's electric vehicle infrastructure projects, and transfer of development rights projects. Past work includes long-range regional land use and economic development planning, SEPA project management, and grant development and implementation. Prior to joining PSRC, Mr. Miller worked for the City of Seattle on neighborhood planning.**
- Description: **Mr. Miller will discuss the recently released report "*Electric Vehicle Infrastructure: A Guide for Local Governments in Washington State*" which includes model ordinance, model development regulations, and guidance related to local vehicle infrastructure, per RCW 47.80.090 and 43.31.970.**
- References: **To view the guidance, visit the Puget Sound Regional Council's website at <http://www.psrc.org/transportation/ev> and click on Model Guidance.**
